Pasifika Education Plan 2013-2017

Foreword

**Talofa lava, Kia orana, Fakaalofa lahi atu,
Talofa ni, Mālō e lelei, Ni sa bula, Greetings,
Tena koutou katoa.**

A key goal for our Government is to create the conditions for strong, vibrant and successful Pasifika communities – communities that can help build a more productive and competitive economy for all New Zealanders.

We are pleased to present the Pasifika Education Plan 2013-2017 which sets out the Government's strategic direction for improving Pasifika education outcomes over the next five years. It is one of the Government's key strategies that will contribute to economic growth and social well-being.

We have been working to improve outcomes for Pasifika learners through increased participation in early childhood education, enhanced school experiences, and a sharper focus on provider performance. As a result, Pasifika learners' participation and achievement in education have improved markedly during the last five years. More Pasifika learners are achieving NCEA Level 2 and gaining entrance to university. We have seen an increase in the number of Pasifika students gaining Level 4 and above qualifications by age 25 from 18% (836) in 2007 to 26% (1,300) in 2010.

The Pasifika Education Plan puts Pasifika learners, their parents, families and communities at the centre of the education system, where they can demand better outcomes. The Pasifika Education Plan also aims to lift the level of urgency and pace in delivering change more quickly, in sustainable

and collaborative ways between parents and teachers, community groups and education providers.

Practically, this means increasing participation in quality early childhood education to drive higher literacy, numeracy and achievement of qualifications in schooling, which in turn will contribute to higher participation and completion of qualifications in tertiary education, resulting in the greatest social, cultural and economic benefits.

Higher level tertiary qualifications bring people the greatest benefits, including better income and employment opportunities. When compared with all other groups, despite the progress we have made, Pasifika people still have the second lowest proportion with degrees or higher qualifications. We need Pasifika learners to be achieving at all

levels at least on a par with other learners.

The Pasifika Education Plan aims to not only keep up the momentum we have achieved to date but also step up the pace by increasing the responsibility and accountability of everyone in the education system. The Pasifika Education Plan will also contribute to achieving the Government's education priorities by focusing on achieving the Better Public Services (BPS) targets for education.

We look forward to seeing a significant lift in outcomes for Pasifika learners with the implementation of the new Pasifika Education Plan 2013-2017. We expect the Ministry of Education and its Education Partner Agencies to ensure that everything they do works well so that successful Pasifika participation, engagement and achievement in education are a sustained reality.

A Message from the Secretary for Education and Chief Executives of Partner Agencies

Talofa lava, Mālō e lelei, Kia orana, Talofa ni, Fakaalofa lahi atu, Ni sa bula and greetings to you all.

New Zealand's education system must work better for Pasifika learners. The Pasifika Education Plan 2013-2017 (PEP) seeks to build on what is working well and raise achievement for all Pasifika learners.

The PEP highlights the importance of the Ministry of Education and partner agencies working with Pasifika communities to improve outcomes for Pasifika learners. Working together ensures that activities that are required to lift achievement also respond to the identities, languages and cultures of the different Pasifika groups. Also, working with parents, families and communities, means better outcomes will be achieved by learners.

The PEP adopts a Pasifika connected way of working. This 'connectedness' highlights the importance of Pasifika collective partnerships, relationships and responsibilities and demands consistently high quality and effective education for Pasifika success. The PEP aims to promote closer alignment and compatibility between learners' educational environments and their home and cultural environments. Implementing actions raised in the PEP will lift quality early childhood education, strengthen engagement in all areas of learning and raise achievement for Pasifika learners.

The Ministry of Education alongside the Ministry of Pacific Island Affairs, the Education Review Office (ERO), the Tertiary Education Commission (TEC), the New Zealand Qualifications Authority

(NZQA), Careers New Zealand (CareersNZ), New Zealand School Trustees Association (NZSTA) and the New Zealand Teachers Council (NZTC) are working together to deliver results for all Pasifika learners.

The PEP is the overarching education strategy from which other agencies' Pasifika frameworks and strategies link to. These links are seen through the NZQA's Pasifika Strategy 2012-2015, TEC's Pasifika Framework 2013-2017 and ERO's Pacific Strategy.

Pasifika Education Plan
2013 - 2017

The Pasifika Education Plan (PEP) personalises all of the Ministry of Education and partner agencies' work to Pasifika. Personalising is used to show that the PEP brings together all of the Ministry's work for Pasifika and puts Pasifika learners, their parents, families and communities at the centre of the Pasifika Education Plan so that all activities ensure they are responding to the identities, languages and cultures of each Pasifika group. This requires the PEP to take account of processes, methodologies, theories and knowledges that are fa'asamoa (the Samoan way), faka-Tonga (the Tongan way), faka-Tokelau (the Tokelau way), faka-Niue (the Niue way), akano'anga Kūki 'Āirani (the Cook Islands way), and vaka-Viti (the Fijian way) for the major Pasifika populations.

Pasifika Success will be characterised by demanding, vibrant, dynamic, successful Pasifika learners, secure and confident in their identities, languages and cultures through all curriculum areas such as the arts, sciences, technology, social sciences and mathematics. This involves the deliberate and systematic use of a holistic approach and using existing communities, venues and networks to access Pasifika parents, families and learners to support their wellbeing and learning from beginning to end.

Data and information will be used to increase the knowledge and voice of Pasifika learners, parents, families and communities, so they can demand better outcomes and influence the education system from within.
