This site provides most of the resources needed for establishing management systems to support and enhance student learning.

The front page provides useful links to the latest news and updates.

From the Homepage follow the [Our education system](#) link in the left menu.

Choose the sector of most interest and explore.

Quick links to:

- [Review of Special Education](#)

Example

1. [Primary and Secondary Education](#) open [School Operations](#)
2. Open [Property Management](#) from list
3. Open [Property Management Information System \(PMIS\)](#)
4. Open [Access the site here](#) to access information about your school.

A quicker way is to use the search function and search for PMIS

Spend sometime making yourself familiar with this site so that you can find the resources quickly when you need them on a 'just in time' basis. Links to most documents sent to schools can be found here.

Many of the resources on this site can be accessed from [Educational Leaders](#). For example in [Problem Solving](#) a range of [general resourcing forms](#) can be downloaded.

[Managing your school](#) has a list of the [Administration links](#) on the sites.

[Education Counts](#) the collection of research and data about education.

This is where to find the

[Best Evidence Synthesis Iterations](#) (BES publications).
